

copy draft

headline:

Excellence gets you to the top.

Empowering others keeps you there.

body copy:

SeaSpace has been the leader in the remote sensing ground station field for 25 years. We pioneered the commercialization of the technology, and installed over 400 systems worldwide – more than all the competition combined. Staying on top is another matter entirely. That’s why we enable our customers to remain current and to control their own future.

- The SeaSpace system that you buy today will work with tomorrow’s technology, for NPOESS and beyond.
- SeaSpace’s open architecture lets you integrate your own software into our powerful TeraScan® package.
- We’ve helped build a user community that shares solutions among researchers and operational users worldwide.
- And we provide world-class service and support to each SeaSpace client.

Empowering our customers . . . that’s what continued leadership is all about.
